

2. Radio receiver UKW

Receiver E-41-B in pluggable casing, connection voltage 24 V AC / DC with one relay output

Artikel-Nr.:

020044-31-3-32

Receiver E-41-L, pluggable, with one transistor output for e. g. sliding gate operator STA 270 / 280

Artikel-Nr.:

020046-31-3-32

10

Receiver E-41-1, with casing, external installation, with one relay output, connection voltage 230 V, switchable functions: impulse, ON / OFF or time impulse

Artikel-Nr.:

020041-31-3-32

Receiver E-41-4, technical details as receiver E-41-1 but with four relay outputs

Artikel-Nr.:

020042-31-3-32

Receiver module UKW for tomatic garage door operators, radio receiver UKW and signal lamp control

Artikel-Nr.:

148233-01-1-50
